Manufacturers and suppliers of world class
rubber and PVC extrusions and mouldings

Proudly Australian owned and operated

PROAUTO RUBBER AUSTRALIA

WE ARE PROAUTO RUBBER

Proauto Rubber Australia is an independent locally owned wholesaler and retailer of automotive, commercial and industrial rubber products based in Albury NSW.

PAR was originally founded in South Africa where we have a combined 22 years of experience in the rubber industry including manufacturing, retail, wholesale and distribution. Most products are manufactured by our own plant in Boxburg, South Africa. Other products are sourced locally, within Australia and from partner manufacturing firms globally.

Proauto Rubber specialises in universal automotive and industrial rubber extrusions and sheeting. Our product applications extend to an ever-increasing list of industries, including manufacturing firms, automotive mechanics & panel shops, automotive and building window glazing, construction & trades people, general & civil engineering, mining sectors, agriculture & abattoirs as well as professional offices & local retailers.

Our team is dedicated to providing quality rubber products at a fraction of the expected cost. Our focus is providing reliable service and effective, thorough communication to all of our valued clients. Whether you buy a metre or a container shipment from us, we will give you the same level of service guaranteed.

Our catalogue is not all inclusive of PAR's manufacturing capability. We design, manufacture and supply a range of custom extrusions to our valued customers. If you cannot find the product for your application, please give the team a call and we will provide or source a custom solution for you.

Rubber – What – Where – How - Why

Natural Rubber

Produced from a tropical tree, for over one hundred years rubber was based on natural rubber.

Ethylene Propylene Diene Monomer (EPDM)

Used for glazing & refrigeration Extrusions
Good heat resistance
Excellent weather resistance
Good low temperature resistance

Nitrile (NBR)

Used in 'O' rings
Good mechanical properties
Excellent resistance to oils & fuels
Good alkali and acid resistance

Nitrile Food Quality (NFO)

Food gaskets, buffers & liners
Good oil & heat resistance
Non-toxic
Non-swelling

Synthetic Rubber

Made in factories from crude oil since the 1930s. Rubber compound will have ± 18 ingredients

Silicone (si)

Extreme temperatures Like oven door seals Heat resistance up to 250°C Excellent weather resistance Moderate fuel resistance

Neoprene (cr)

Used in oil and fuel gaskets Good mechanical properties Excellent weather resistance
Flame resistant

Polyvinyl chloride (pvc)

Used to extrude pinch Weld & building profiles
Good for UV resistance
Non-marking

Thermoplastic

Polymers that can be melted and recast almost indefinitely. Molten when heated and harden when cooled. Represent over 75% of the worlds consumer plastics. Used to manufacture moulded vehicle floor mats.

Rubber is used in a wide range of products!

Tyres - Tubes - Engine Mountings - Screen Door Universal Extrusions - Building Profiles-Sheeting - Flooring - Hoses - Footwear - Belting - Tubing - Gaskets - Cables – Grommets-Bushes - Rollers - Handle Grips - Tools - Ute Mats - Trailer Mats - Mudflaps - Diving Suits Elastic - Balloons - Tank Linings - Pipelines - Gloves - Fan Belts - Oil Seals - Dummies Bottle Teats - Squash Balls - Tennis Balls - Golf Balls - Rugby Balls - And Many More ...

SHEET RUBBER

PAR manufactures and supplies SBR sheeting as standard in pattern, textured or smooth finishes.

Stud Coin Sheet

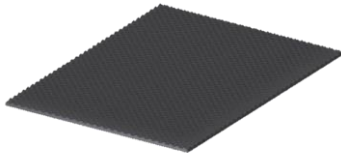

Wide Ribbed Sheet

Checker Plate Sheet

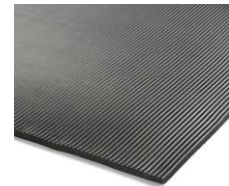

Pyramid Sheet

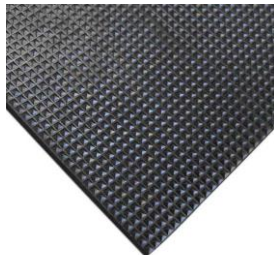

Diamond Sheet

Fine Ribbed Sheet

Super Grip Sheet

Available Thicknesses:

1.5mm, 1.6mm, 3mm, 4.5mm, 6mm.

Other sizes available on request.

Roll Widths Available:

1200mm, 1500mm, 1600mm.

Available in natural rubber, pure gum, styrene-butadiene (SBR) blend (as standard), nitrile (NBR) and ethylene propylene diene monomer (EPDM). We have a material and finish to suit most requirements, please enquire within.

STANDARD 10 METRE ROLL

applies on wholesale orders or available by the metre in store.

INSERTION RUBBER

Premium & Commercial Grade Insertion Rubber – Reinforced to improve tear strength with a woven cotton/fabric ply as standard. PAR manufactures and supplies styrene-butadiene (SBR Blend) as standard.

Available in natural rubber, styrene-butadiene (SBR) blend (as standard), nitrile (NBR) and ethylene propylene diene monomer (EPDM). We have a material and finish to suit most requirements, please enquire within.

Standard Thicknesses Available:

1.6mm, 3mm, 4.5mm & 6mm

Standard Roll Widths Available:

1200mm, 1500mm & 1600mm

STANDARD 10 METRE ROLL

applies on wholesale orders or available by the metre in store.

HORSE, EQUINE & AGRICULTURE RUBBER

Super heavy duty sheet rubber designed for the equine, horse racing and agriculture industry. Made with a higher density compound, a thicker sheet with more woven ply layers to ensure maximum tear and rip resistant.

Equine Matting

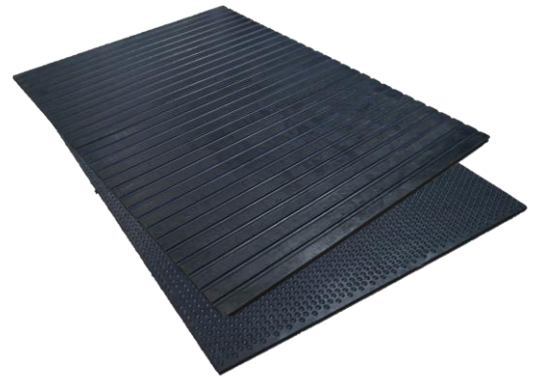

Standard 2 metre x 10 metre roll.

Textured finish on the underside for stability, with a honeycomb bubble pattern top side for grip on the animals shoes.

Can be supplied by the metre in store.

Super Heavy Duty Cow Mat

Standard size single unit 1220mm x 1880mm. Raised bubble on one side, cleated smooth finish on the other. Available in 12mm or 18mm thicknesses.

Stepped Loading Ramp Mat

Standard or custom sizing available.

Made from a high density compressed sheet with a textured finish. Steps are moulded into the sheet as part of the production process to ensure the animals shoes will not tear or strip away the step.

Excellent cushion and anti-vibration properties.

Stripped Insertion Rubber

Available in custom lengths and widths to suit round yard, trotting ring, stable or other agriculture related fencing. Can also be used as chassis rail strip, anti-vibration runners, some light duty conveyer systems, some sealing solutions, edging, vermin control, mud guards and stone protection under trailers, just to name a few applications. Some standard widths held as stock.

Minimum quantities apply.

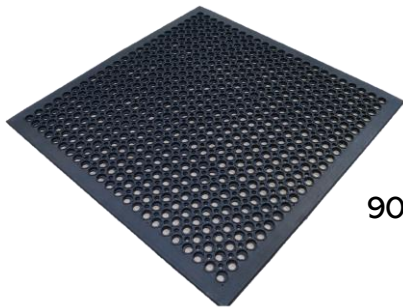

RUBBER MATS

All PAR Rubber Mats are made from a NBR (Nitrile) Blend for resistance against petroleum based liquids or chemicals and add resilience in any workplace application.

ERGONOMIC ANTI-FATIGUE MAT

900mm x 600mm & 1200mm x 900mm

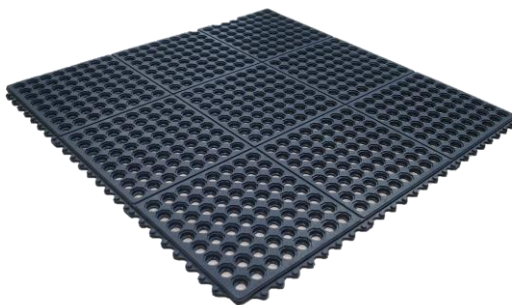

DRAINAGE/HOSPITALITY MAT

900mm x 900mm 12mm & 930mm x 1550mm 12mm

Rubber Anti-Fatigue Bubble Mat Roll

900mm x 9300mm Black 15mm

MODULAR MAT - OPEN HOLE BLACK

900mm x 900mm

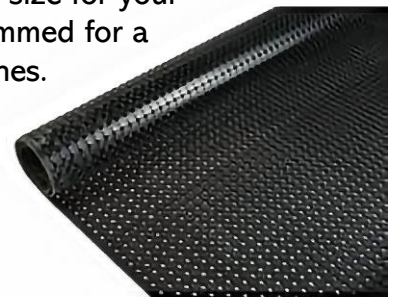

Modular Anti-Fatigue Mats can be linked together in a continuous line or as a larger square mat.

UTE MATTING

Standard size available: 1830mm wide x 10m roll.
Premium Grade, made from an NBR blend giving some petroleum based fluid resistance. Cut to size for your ute in store upon request. Easily DIY trimmed for a custom fit in your tub around wheel arches.

WATER JET CUTTING

PAR Australia in partnership with a local manufacturer, using water jet cutting technology can have rubber sheeting cut into any shape or size to suit your requirements.

ENTRANCE MATS

Coloured Entrance Mats are rubber backed for best surface grab and durability.

Coloured Entrance Mat 1200mm x 900mm x 8mm

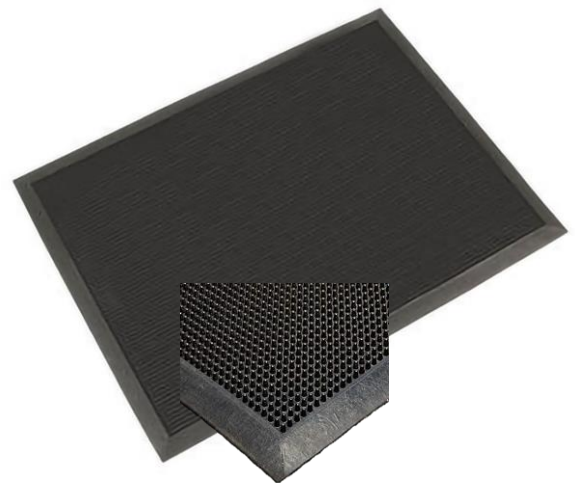

RINGMAT Sloped Edges (NBR Blend)
1000mm x 500mm x 18mm

Turtle Shell Design Black (NBR Blend)
1500mm x 900mm

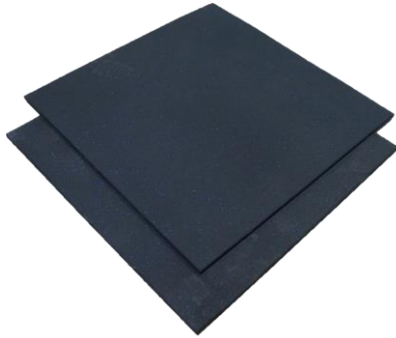

Fingertip Design Entrance Mat (NBR Blend)
1200mm x 800mm & 1500mm x 900mm

All PAR Rubber Mats are made from a NBR (Nitrile) Blend for resistance against petroleum based liquids or chemicals and add resilience in any workplace application.

RUBBER FLOORING SOLUTIONS

GYM TILES

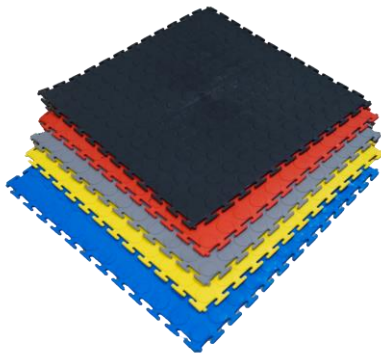

Premium Grade Rubber Gym Tiles/Mats made from 100% recycled Rubber Tyres. Completely stripped of any wire content left over from the recycling process. Up to 10% EPDM Blue Fleck throughout.

A very high resin content making for a much more dense, heavier and durable surface that is even easier to mop in a commercial gym.

Crossfit? Powerlifting? Made 15mm thick as the minimum standard for most reputable barbell company warranties and terms. A perfect square metre in size making calculating your flooring requirements and fitment a breeze.

INTERLOCKING FLOORS

Multi-purpose PVC floor tiles used as a floor covering for any type of surface, these are ideal for protecting both floor and user. This industrial flooring option is available to protect workers, machines and equipment throughout the daily grind, adding a dependable layer that is easy to clean and won't weather. Moulded from heavy duty thermo-plastics to ensure continual use with minimal wear and tear. Ideally suited to the home garage, gym or shopfront, these interlocking PVC tiles are a long lasting and grip-heavy surface perfect for a range of applications.

Product size: 500mm x 500mm x 5mm (4 x tiles interlocked to form 1 square metre)

Colours Available: Black, Dark Grey, Light Grey, Blue, Red, White, Green, Yellow, Orange. **(Black colour range manufactured from recycled plastics)**

Interlocking PVC Tile Edging Available for the finished look.

AUTOMOTIVE CLIPS

PAR Australia supply a wide range of automotive clips, ranging in colour & size. Wholesale & Trade prices Available Bulk or Individual orders.

ANTI-VIBRATION PADS

WAFFLE PADS

457 X 457 X 8

SUPPLIED IN BOXES OF 20 PADS

An inexpensive material for effective control of machinery vibration, shock and acoustic noise.

ST AVIBE - 20 METRE COIL ST
AVIBE1000 - METRE STRIP

Supplied in 20 metre rolls or 1 metre lengths. An ideal product for use when a long line of vibration resistance is needed.

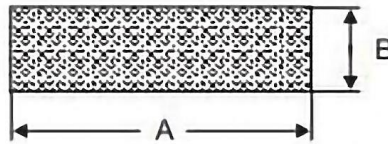

SELF ADHESIVE FOAM TAPE

Different materials for different applications available including PVC & Polyethylene, Neoprene & Nitrile blends. Closed & open cell, soft & hard varieties – Closed cell PE/EVA stocked as standard.

Just ask the PAR team for assistance in selecting the best solution for you.

Universal Automotive & Industry Rubber Extrusions

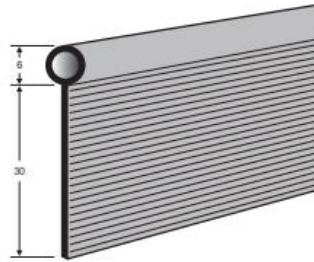

Trying to understand where rubber extrusions might be used in the Australian manufacturing and production industry may seem like a confusing task. But the team at PAR Australia are fulfilling this role for our clients every day. We source clients looking for a holistic supplier of rubber extrusions who need an industry expert to provide advice on their process and identify the right products for their applications.

PROAUTO RUBBER AUSTRALIA

CYANOACRYLATE ADHESIVE SUPER GLUE

EPDM Cyanoacrylate 606 20GSM Super Glue

This super glue offers an exceptionally fast cure speed which is perfect for bonding difficult substrates and acidic surfaces. It works well with wood, PVC, substrates that contain plasticizers, EPDM, etc. This Cyanoacrylate super glue is easy to use and bonds almost anything.

AVAILABLE IN LARGER QUANTITIES
